What is the programme based on?

Our main objectives are to improve your footballing abilities and to instil the values which our club represents. These include teamwork, resilience, tolerance, respect, friendship, and fair play.

Our qualified, experienced coaches work under our club methodology, used in our own academy. This ensures that they meet the levels and demands of Spanish professional football clubs.

The **Real Oviedo Pro Experience** allows us to scout and find new talent. The training sessions are accompanied by leisure activities in natural environments of great beauty. The opportunity allows players to enjoy an experience in Europe which will have a positive impact on their development.
